Schedule Next Commission Meeting

VII. ADJOURN

Sec. 319.363. TESTING FOR TOTAL CARBON DIOXIDE.

(a) Findings and Presumptions.

(1) The commission finds that a total carbon dioxide level of 39 millimoles per liter or more in equine serum can be achieved only through the administration, by any means, of a bicarbonate-containing substance or other alkalinizing substance.

(2) A horse entered or participating in a race may not be administered a bicarbonate-containing substance or other alkalinizing substance which causes it to carry in its body an excess level of total carbon dioxide.

(3) A positive finding by a chemist of total carbon dioxide level at or above 39 millimoles per liter in a race horse serum specimen is an excess level of total carbon dioxide and prima facie evidence that the race horse was administered a bicarbonate-containing substance or other alkalinizing substance in violation of this section.

(b) Testing Authorized. Testing for total carbon dioxide is authorized as listed below:

(1) The executive secretary may implement a program to collect specimens from race horses and test the specimens for

the presence of total carbon dioxide. In a program implemented under this section:

(A) Specimens may be collected on a random basis, including randomly selected race dates, randomly selected races, and randomly selected horses; and

(B) Specimens may be collected prerace or postrace; or

(2) The stewards or commission veterinarian may require a horse serum specimen to be taken from any race horse designated for cause by the stewards or commission veterinarian for the purpose of testing for total carbon dioxide.

(c) Split Specimen.

(1) The commission finds that the postrace time period during which total carbon dioxide may be detected in a specimen taken from a race horse is limited. Therefore, to provide a meaningful split specimen program, the testing of a split specimen for total carbon dioxide must occur contemporaneously with the testing of the original specimen.

(2) To ensure the owners and trainers of race horses selected for testing under this section are given the opportunity for a split specimen, the trainer of record for each horse from which a specimen is taken pursuant to this section

Chapter 319. Veterinary Practices and Drug Testing.

Subchapter D. Drug Testing.

Subdivision 3. Provisions for Horses.

shall declare in writing whether the trainer requests that the split specimen be tested or waives the right to have the split specimen tested. Failure to request the split specimen test at the test barn within 30 minutes after the post time of the last race for the performance is deemed a waiver of the right to the split specimen.

(3) The split specimen shall be sent for testing to a commission approved and listed laboratory that is acceptable to the trainer of record. The commission staff shall arrange for the transportation of the split specimen in a manner that ensures the integrity of the split specimen.

(4) The trainer of record requesting the split specimen shall pay all costs of transporting and conducting tests on the split specimen.

(5) If the test on the split specimen confirms the findings of the original laboratory, it is a prima facie violation of this section.

(6) If the test on the split specimen does not substantially confirm the findings of the original laboratory, the stewards may not take disciplinary action regarding the test results.

Chapter 319. Veterinary Practices and Drug Testing.

Subchapter D. Drug Testing.

Subdivision 3. Provisions for Horses.

(7) If an act of God, power failure, accident, labor strike, or any other event, beyond the control of the Commission, prevents the split from being tested, the findings of the original laboratory are prima facie evidence of the condition of the horse at the time of the test for total carbon dioxide.

(d) Conflict with Other Rules. To the extent that this rule conflicts with any other commission rule, this rule controls.

RE: *Christmas Eve*

Dear Mr. John Ferrara,

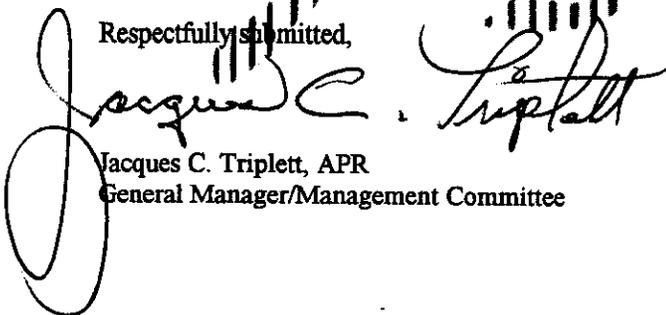

When requesting our race dates for 2005, we had asked to race live Sunday. However, with the shortage of Greyhounds and the fact that most tracks will be closed and have no one to export to or import from, we are requesting to be closed on Christmas Day.

As with each year we had not asked to run Christmas Eve. I understand why the employees to have Christmas Eve and Christmas Day (Saturday and Sunday) off.

Often times racing on a holiday can be a good race day, but with Christmas Day falling on a day coupled with our dog shortage and some many other tracks closed, I think it would be an extremely light race for live racing and little or none for simulcasting.

Thank you for your consideration to this matter.

Respectfully submitted,

VIA FAX AND MAIL

Dear Ms. King:

Valley Race Park respectfully requests that the Texas Racing Commission add an item to the December 13, 2005 meeting agenda regarding the addition of abbreviated performances to its existing 2005/2006 live racing calendar. Effective December 26, 2005 through April 9, 2006 Valley Race Park ("VRP") would like to add abbreviated "encore" performances of two races to each currently scheduled Friday, Saturday and Sunday performances.

This decision has been reached through discussion with the Texas Greyhound Association ("TGA") and both the TGA and VRP agree that adding the additional races would be in the best interests of the greyhound industry.

Please contact me at 281.807.8809 with any questions.

Sincerely,

Michael J. Vitek

Dear Charla Ann:

In accordance with your request regarding the allocation of the cross-species purse allocation for the year 2006, the cross-species contract provides for the following percentages to be applied.

<u>Track</u>	<u>Percentages</u>
Gillespie	1.6%
Lone Star	18.4%
Manor Downs	7.8%
Retama Park	34.7%
Sam Houston Race Park	37.5%

Retama Park is in agreement to continue these percentages for the year 2006.

Yours truly,

Bryan P. Brown

RE: Escrowed Cross-Species Purse Fund

VIA FAX and US MAIL

Dear Ms. King,

Sam Houston recommends maintaining the same percentage as utilized in previous years. In the case of Sam Houston Race Park that would be 37.5% of the total escrowed account for the year 2006.

Sincerely,

Robert L. Bork
President & General Manager

Dear Charla Ann:

In response to your request regarding the allocation of the cross-species purse account, Lone Star Park recommends maintaining the current percentages for 2006. In the case of Lone Star Park, that would be 18.4% of the escrowed account.

If you have any questions with regard to this recommendation, please contact me at (972) 237-1112.

Sincerely,

Jeffrey Greco
